Top Skills

React
TypeScript
Next.js

Dilshod Yadgarov

Bachelor's in Software Developer | ServiceNow Developer | React
Developer
Podolsk, Moscow, Russia

Summary

- I have nearly 3 years of experience in frontend development,
building web applications using React and Redux.
- I am proficient in modern TypeScript and JavaScript (ES6+), and
have experience with Next.js and Node.js for seamless SSR (Server-
Side Rendering) and SSG (Static Site Generation) in a scalable
architecture.
- My expertise extends to integrating RESTful services and GraphQL
using Apollo and Axios, ensuring efficient data fetching and real-time
updates with WebSocket.
- I enjoy creating visually appealing and responsive UIs,
collaborating closely with designers using Figma, while styling
components with Styled Components and optimizing builds with
Webpack.
- I'm well-versed in testing and automation using Cypress, Jest, and
the React Testing Library, with version control managed through Git/
GitHub and project workflows organized via Jira, ensuring smooth
and efficient project delivery.
